

NUMBERS PROJECT

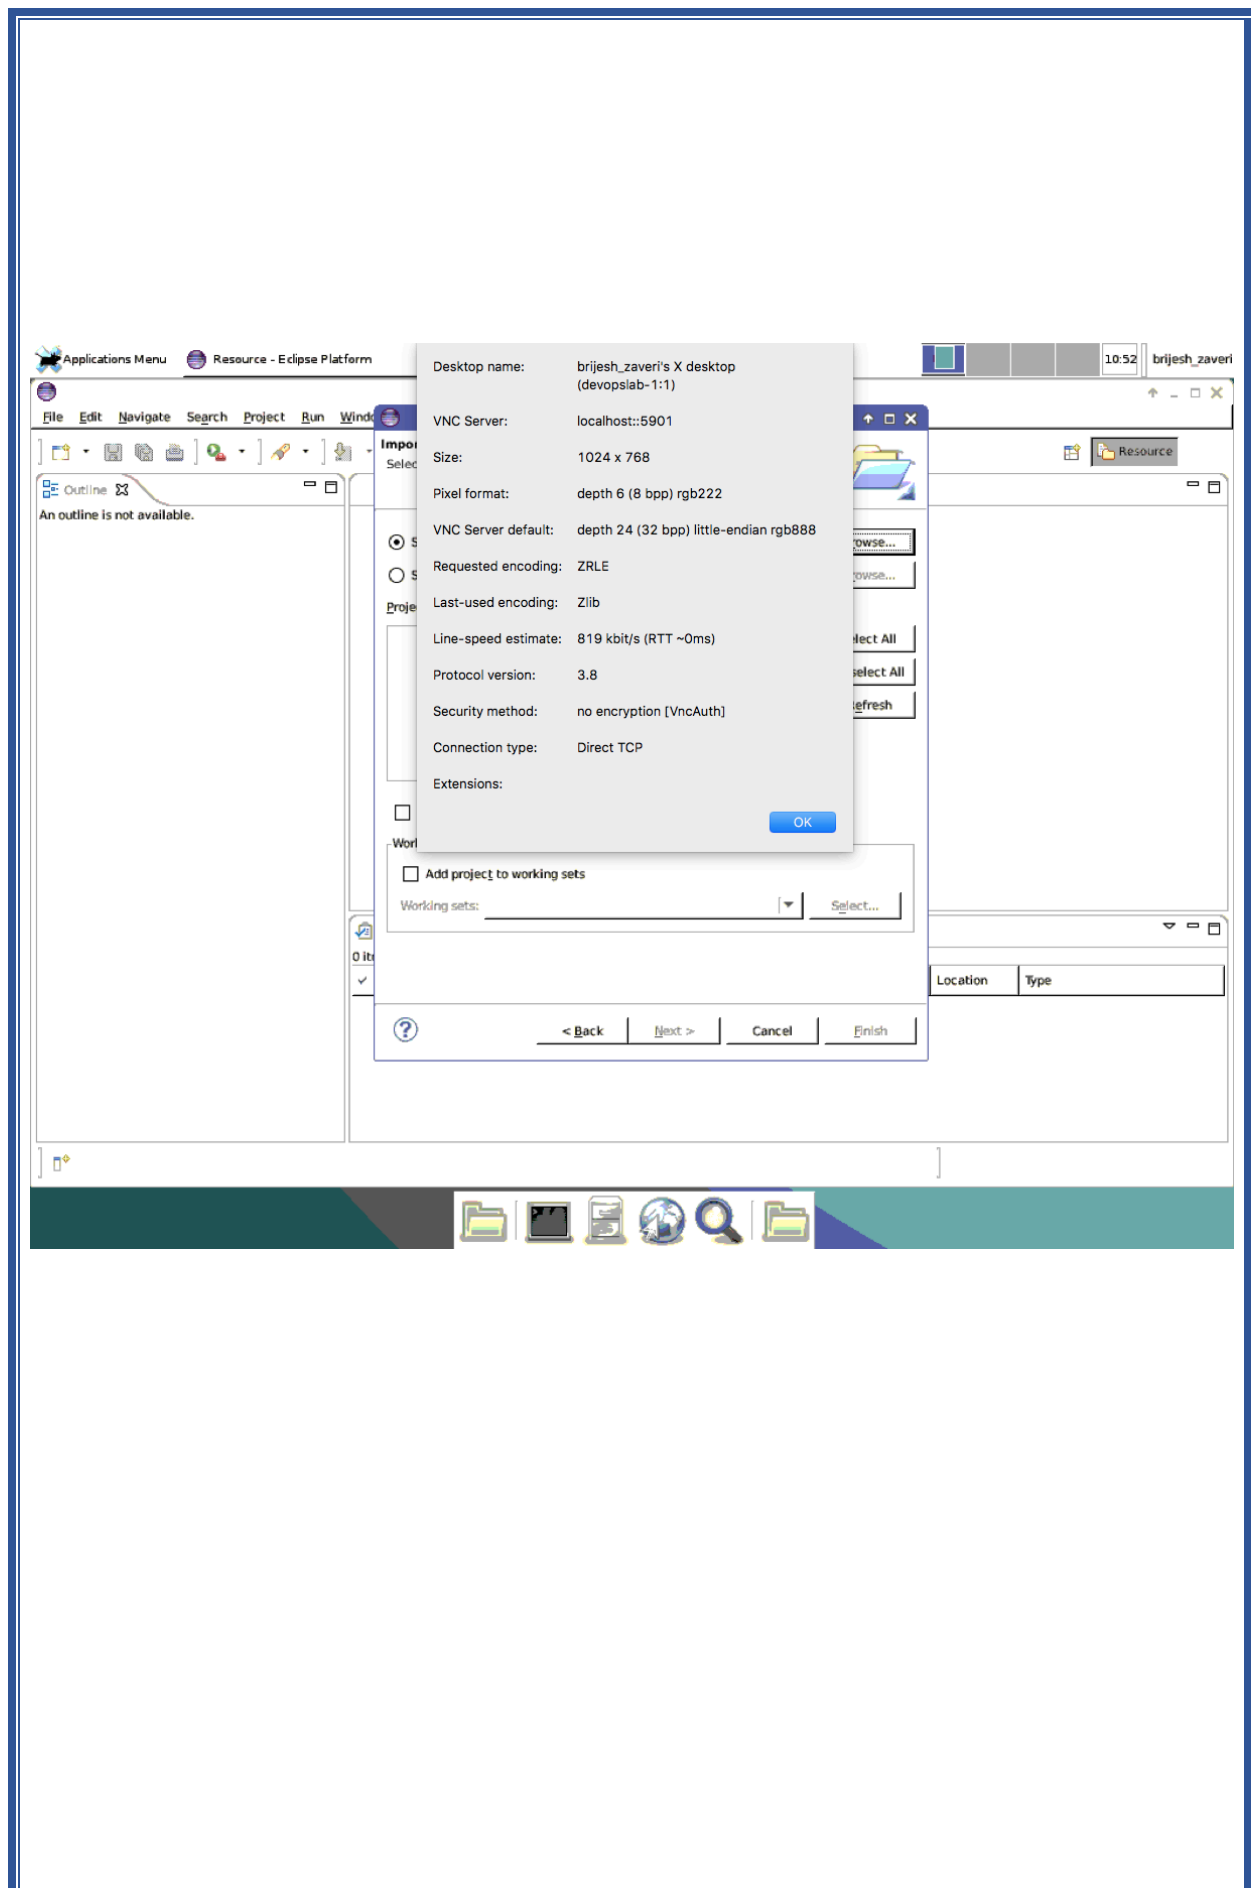

STEP 1: INSTALL ALL THE NECESSARY TOOL'S ON GOOGLE CLOUD, AND ENSURE TO SETUP ANT (AS PER THE 'NUMBER PROJECT QUESTION BOOKLET')

```
brijesh_zaveri@devopslab-1:~/project$ ls
ant  apache-ant-1.10.1  apache-ant-1.10.1-bin.zip  devops-project-3  eclipse-inst-linux64.tar.gz
brijesh_zaveri@devopslab-1:~/project$ []
```

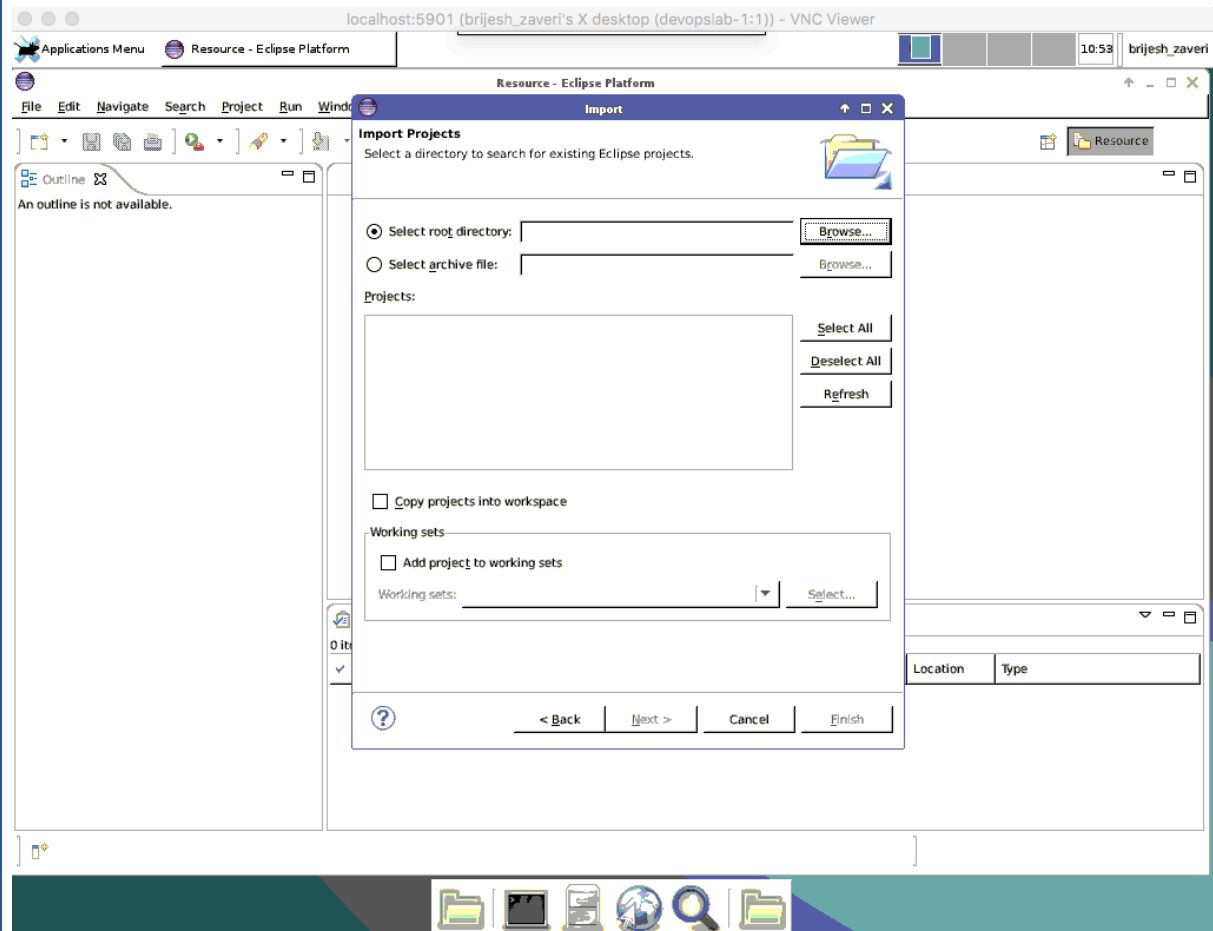

STEP 2: SETUP AN VNC SERVER AND CONNECT TO IT WITH VNC CLIENT VIEWER FROM YOUR BASE MACHINE

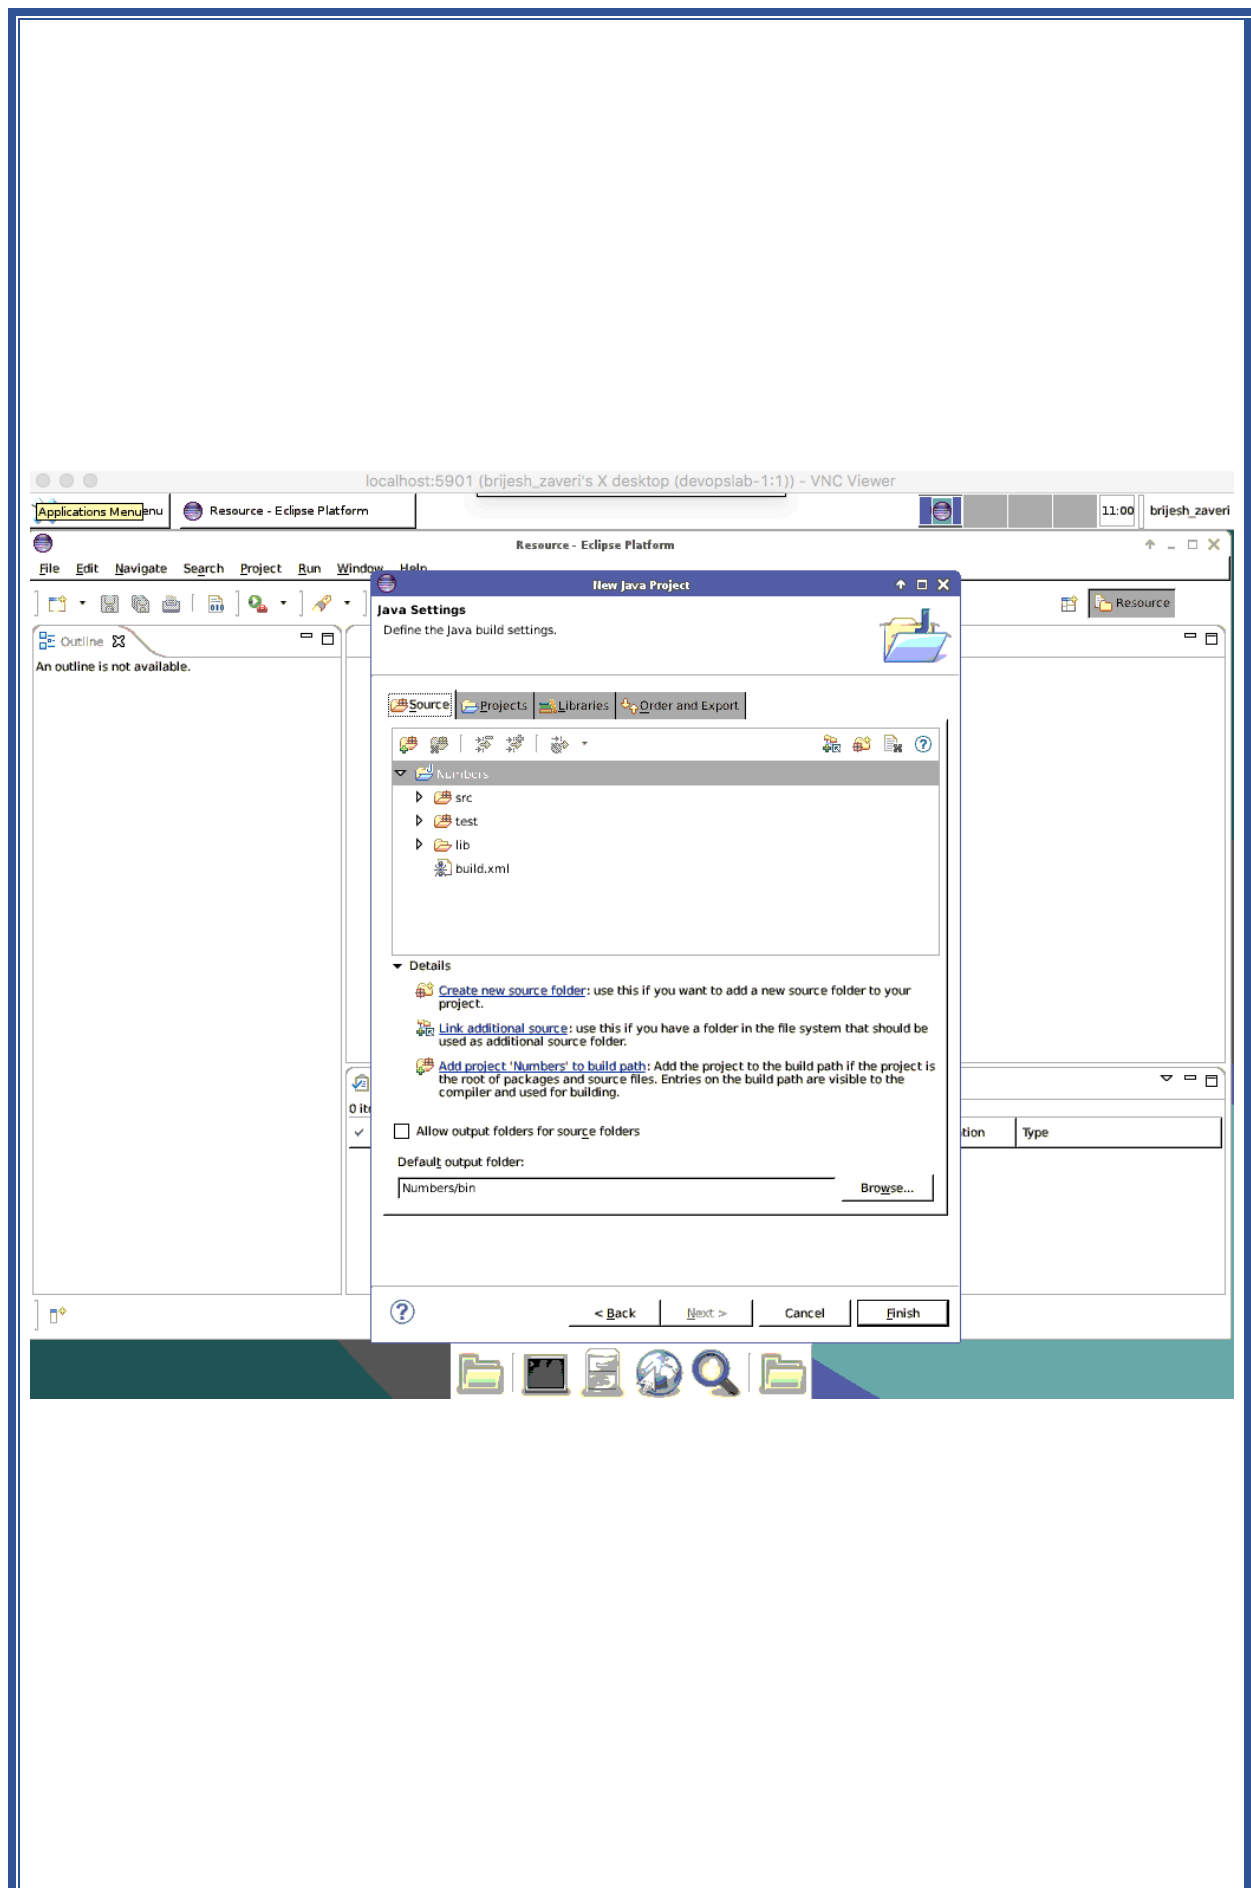

```
~ - bash
Last login: Wed Oct 11 15:32:26 on ttys001
Brijeshs-MacBook-Air:~ brijesh$ ssh -i /Users/brijesh/.ssh/devops_cloud -o UserKnownHostsFile=/dev/null -o CheckHostIp=no -o StrictHostKeyChecking=no -L 5901:127.0.0.1:5901 -N -f brijesh@35.194.202.71
Warning: Permanently added '35.194.202.71' (ECDSA) to the list of known hosts.
Brijeshs-MacBook-Air:~ brijesh$
```

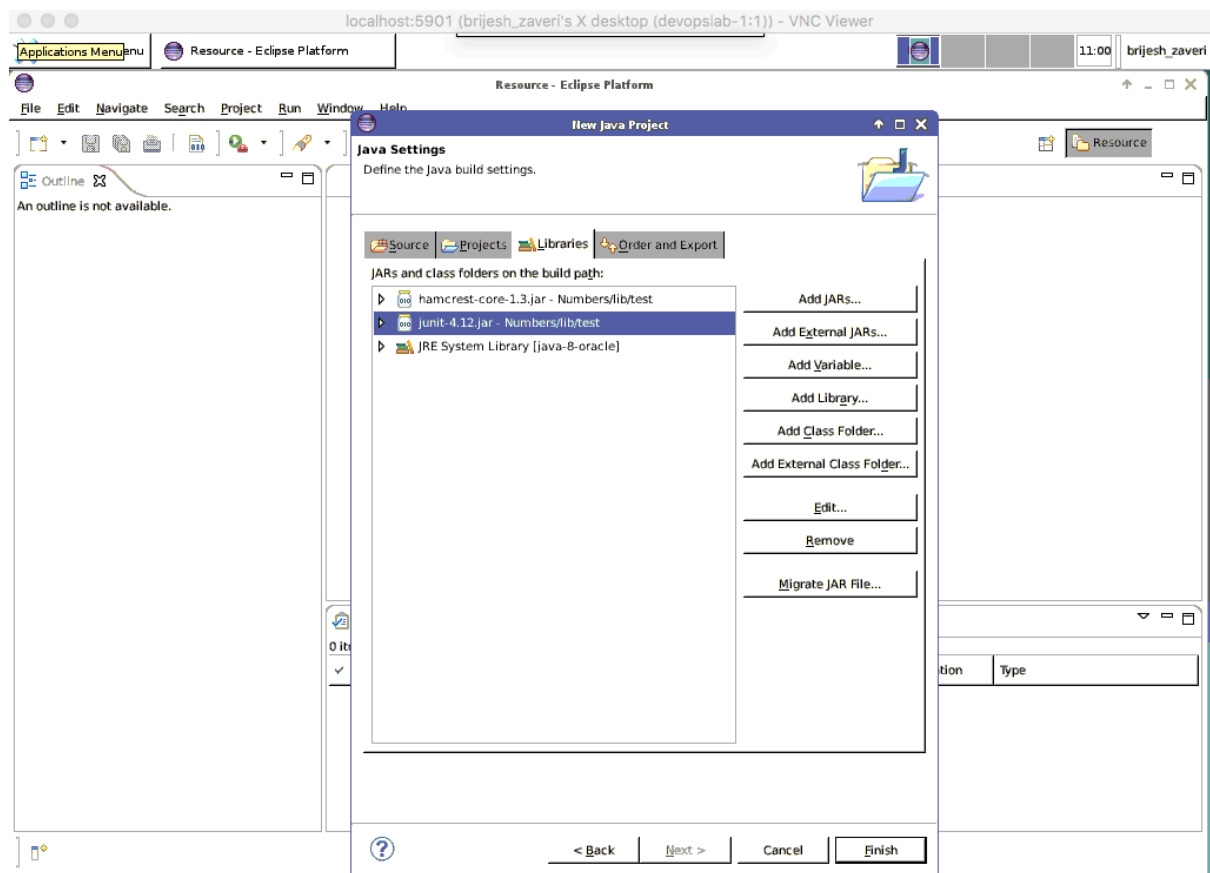

STEP 3: OPEN ECLIPSE IDE & IMPORT THE 'NUMBERS' PROJECT INTO ITS WORKSPACE

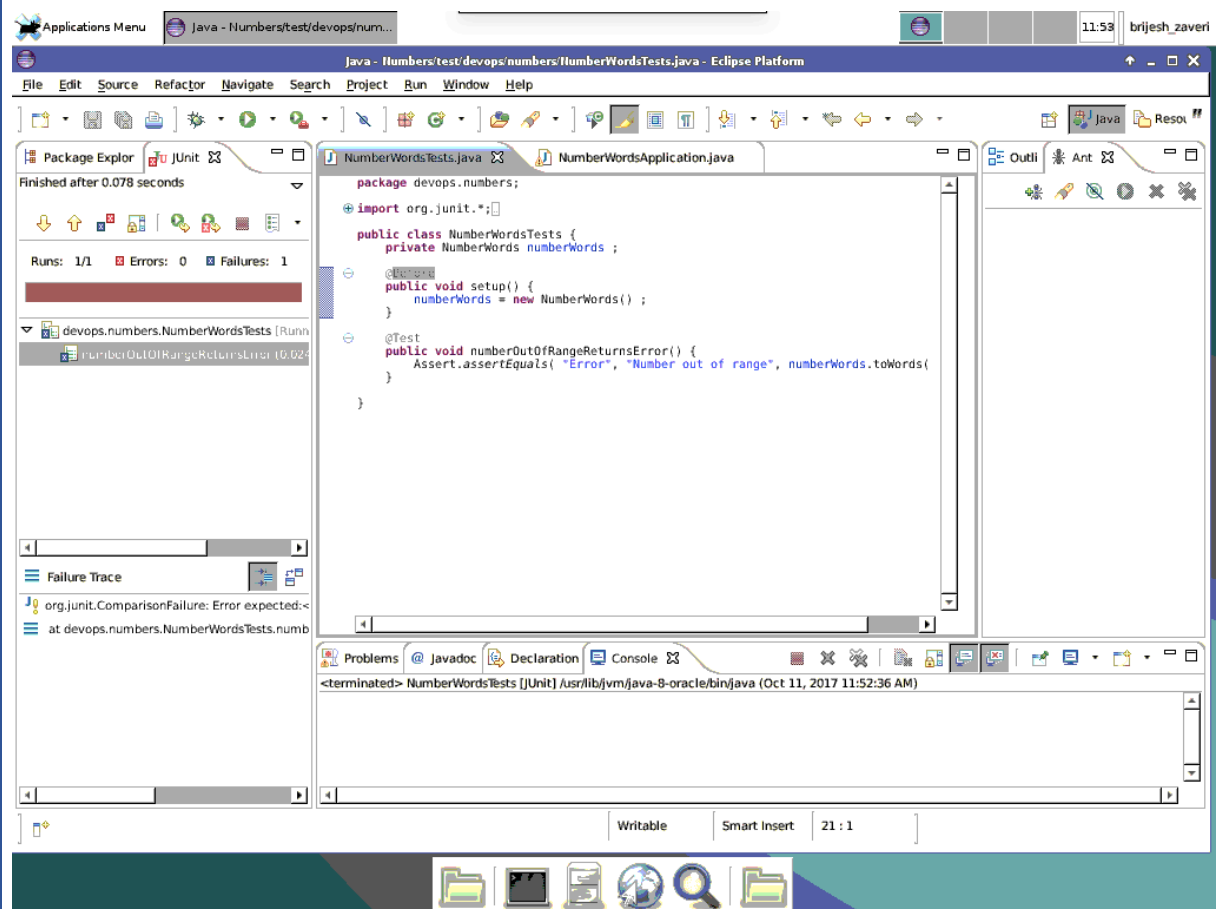

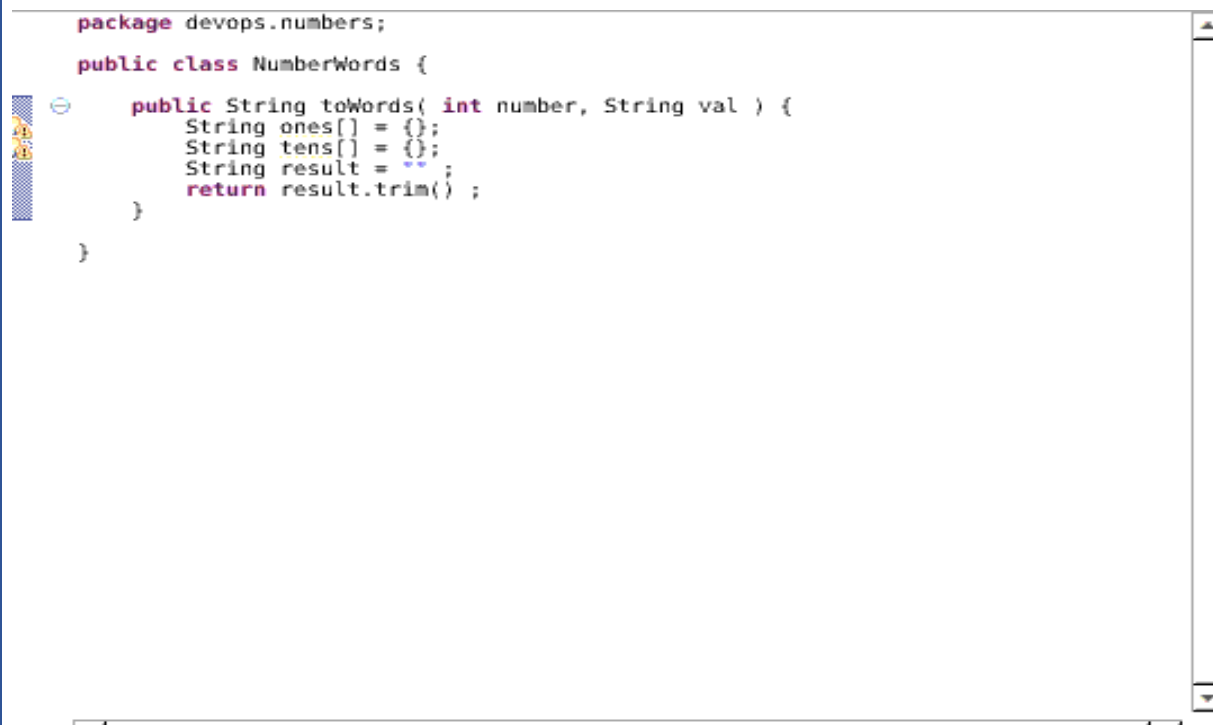

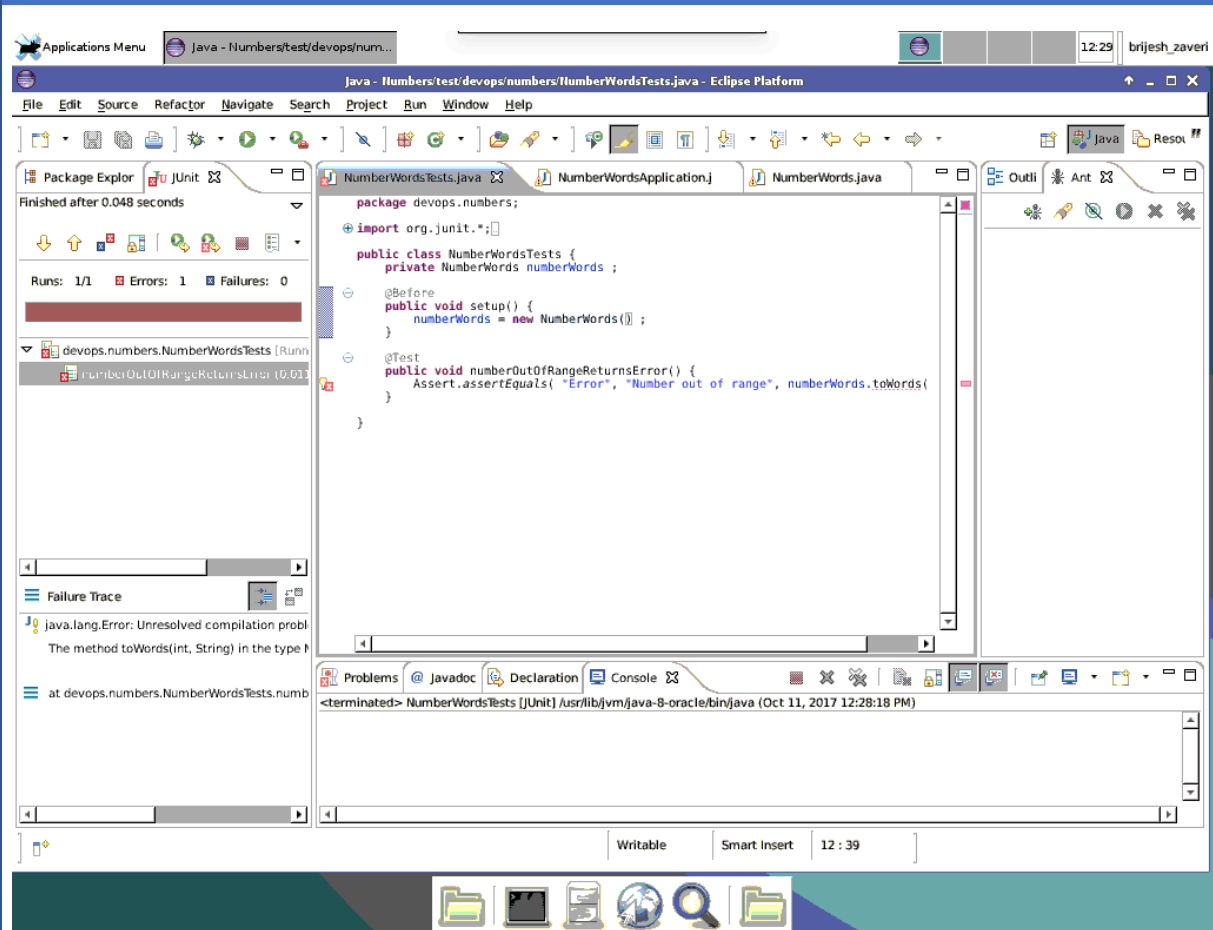

The screenshot displays the Eclipse IDE interface. In the foreground, the 'New Java Project' dialog box is open, specifically the 'Libraries' tab. This tab lists the libraries to be included in the project: 'JRE System Library [java-8-oracle]' and 'JUnit 4.12.jar'. The 'Add External JARs...' button is highlighted. The background shows the Eclipse workspace with a project named 'Resource'.

STEP 5: THE PROJECT WILL OPEN IN YOUR ECLIPSE WORKSPACE

STEP 6: FOLLOW THE TDD APPROACH, & FAIL THE FIRST TEST CASE WITH EMPTY FUNCTION/METHOD/CODE

STEP 7: BUILD IT WITH ANT, YOU WILL NOTICE THAT THE BUILD WILL FAIL

```
brijesh_zaveri@devopsiab-1:~/workspace/Numbers$ ls
bin build.xml lib src test
brijesh_zaveri@devopsiab-1:~/workspace/Numbers$ ant -f build.xml
buildfile: /home/brijesh_zaveri/workspace/Numbers/build.xml

init:
    [mkdir] Created dir: /home/brijesh_zaveri/workspace/Numbers/report

compile:
BUILD SUCCESSFUL
Total time: 0 seconds
brijesh_zaveri@devopsiab-1:~/workspace/Numbers$
```

```
brijesh_zaveri@devopsiab-1:~/workspace/Numbers$ ls
bin build.xml lib report src test
brijesh_zaveri@devopsiab-1:~/workspace/Numbers$ ant dist

init:

compile:

test:
    [junit] Tests run: 1, Failures: 1, Errors: 0, Skipped: 0, Time elapsed: 0.03 sec

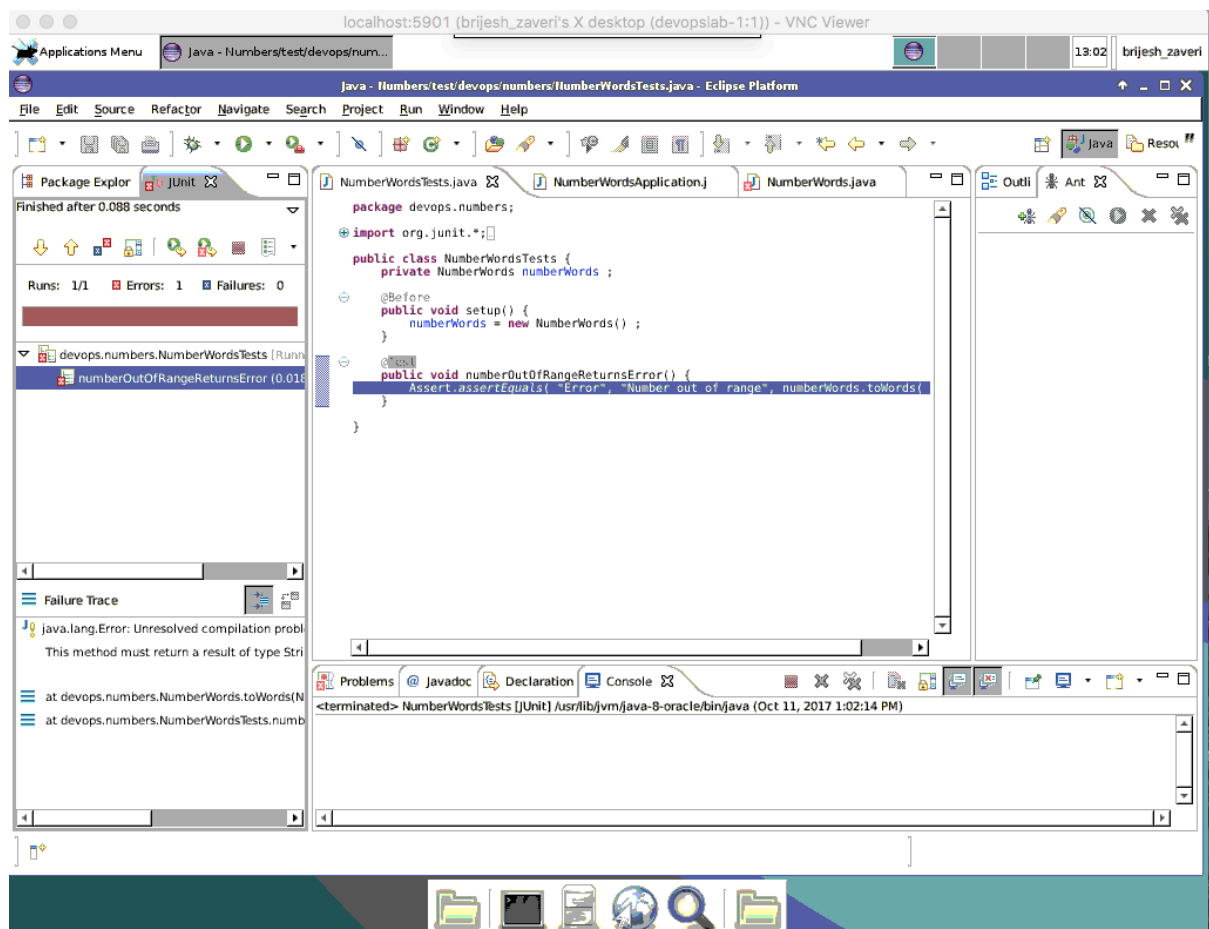

BUILD FAILED
/home/brijesh_zaveri/workspace/Numbers/build.xml:23: Test devops.numbers.NumberWordsTests failed

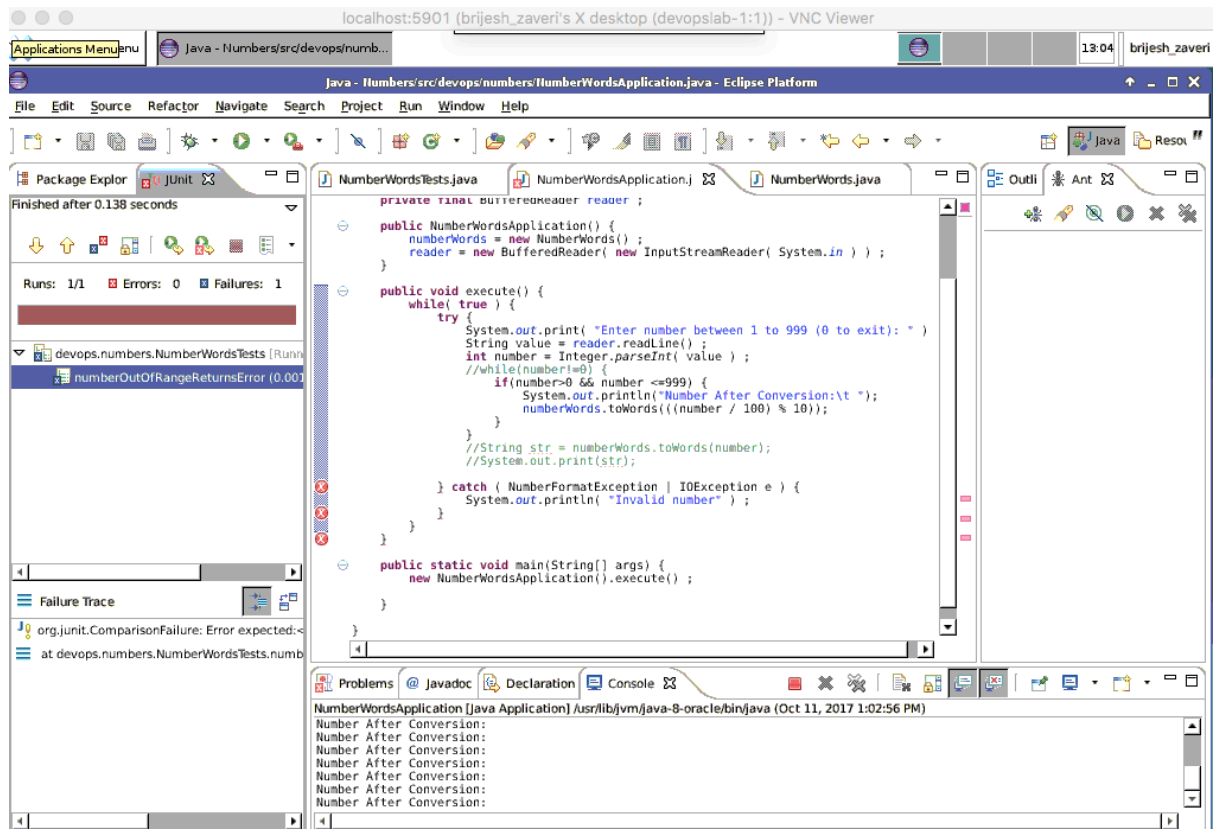

Total time: 1 second
brijesh_zaveri@devopsiab-1:~/workspace/Numbers$
```

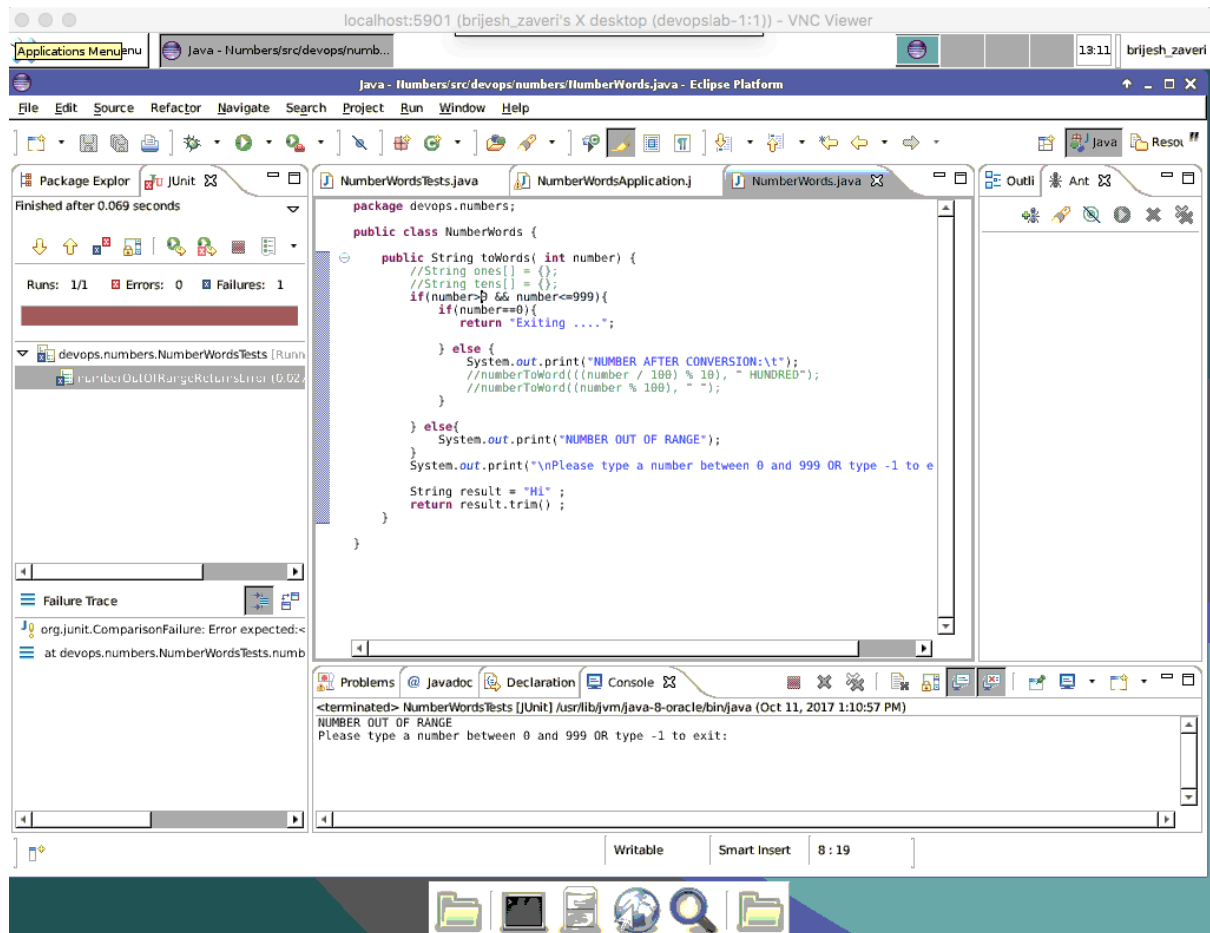

STEP 8: THE BUILD FAILED BECAUSE THE JUNIT TEST FOR EMPTY METHOD FAILED

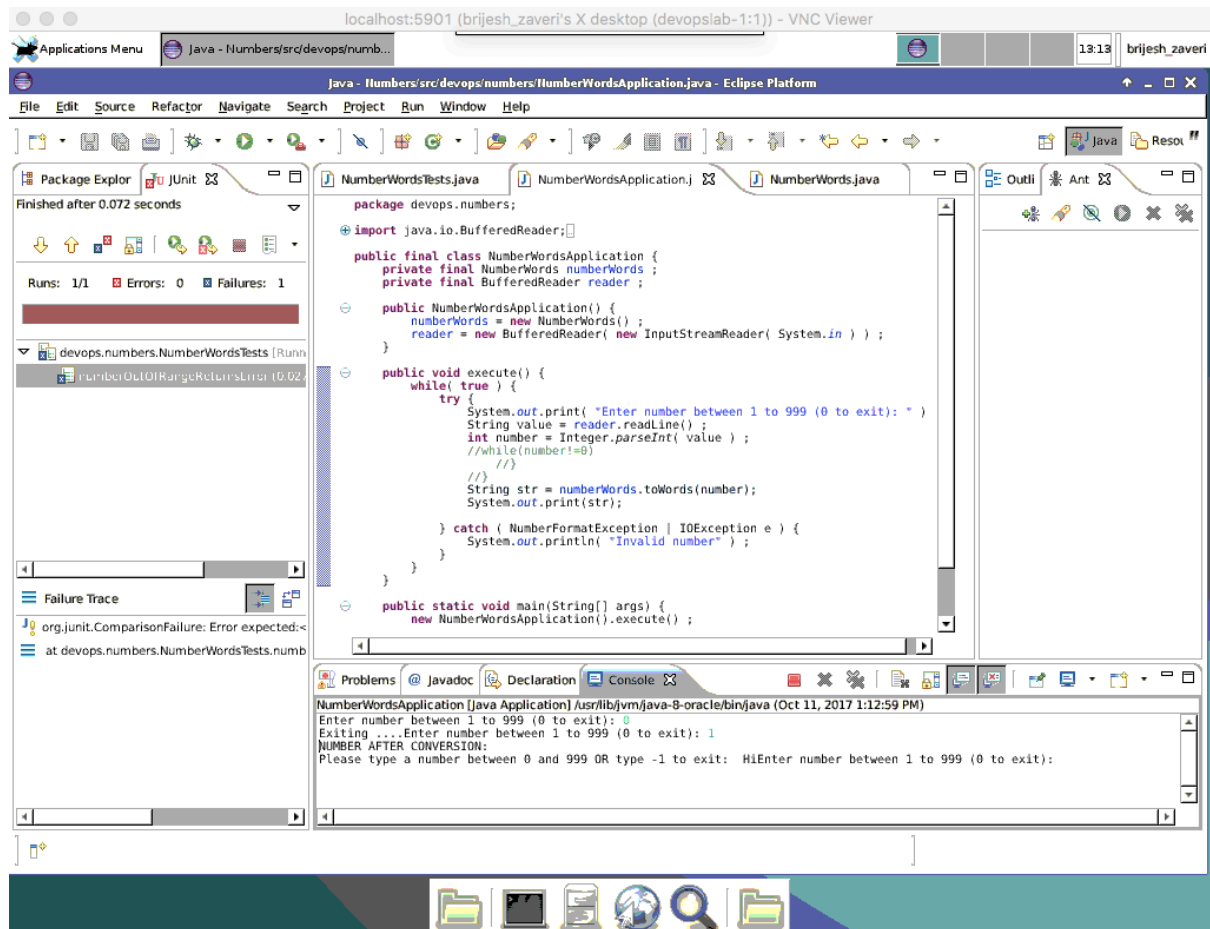

```
brijesh_zaver1@devopslab-1:~/workspace/Numbers/report$ pwd
/home/brijesh_zaver1/workspace/Numbers/report
brijesh_zaver1@devopslab-1:~/workspace/Numbers/report$ ls
TEST-devops.numbers.NumberWordsTests.txt
brijesh_zaver1@devopslab-1:~/workspace/Numbers/report$ cat TEST-devops.numbers.NumberWordsTests.txt
Pestsuite: devops.numbers.NumberWordsTests
Tests run: 1, Failures: 1, Errors: 0, Skipped: 0, Time elapsed: 0.03 sec
Testcase: numberOutOfRangeReturnsError took 0.005 sec
    FAILED
Error expected:<[Number out of range]> but was:<[]>
 junit.framework.AssertionFailedError: Error expected:<[Number out of range]> but was:<[]>
    at devops.numbers.NumberWordsTests.numberOutOfRangeReturnsError (NumberWordsTests.java:17)
brijesh_zaver1@devopslab-1:~/workspace/Numbers/report$
```

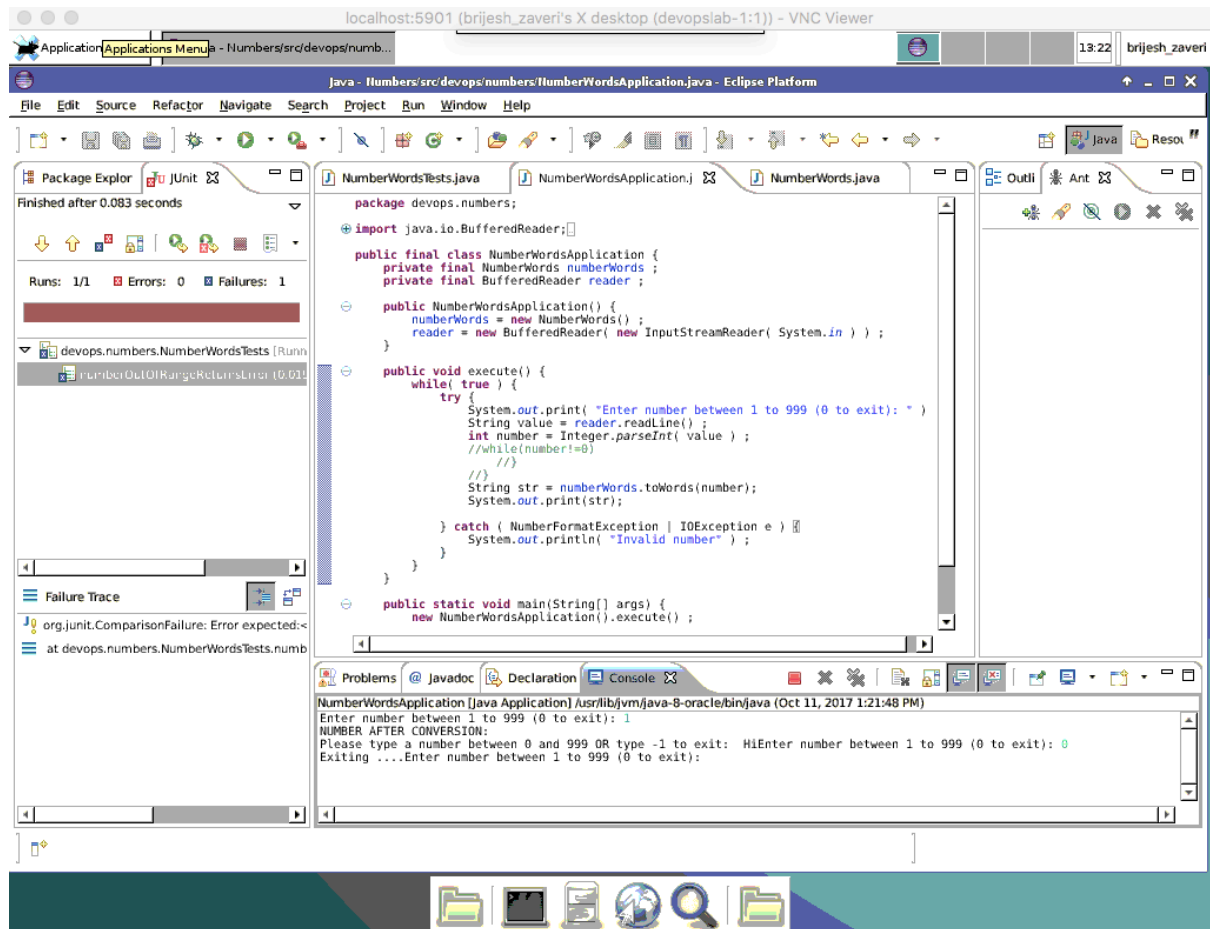

STEP 9: USING TDD APPROACH, START DEVELOPING THE CODES

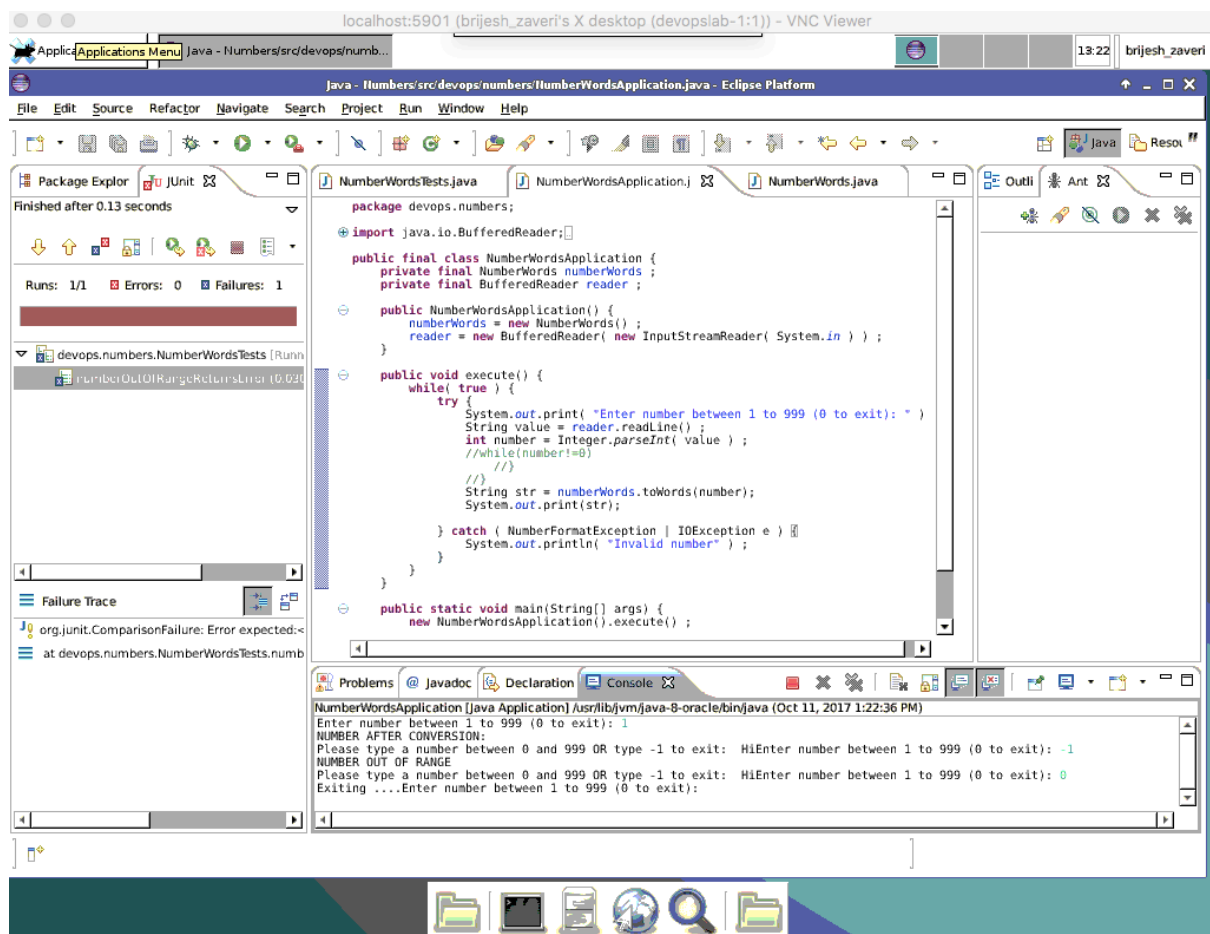

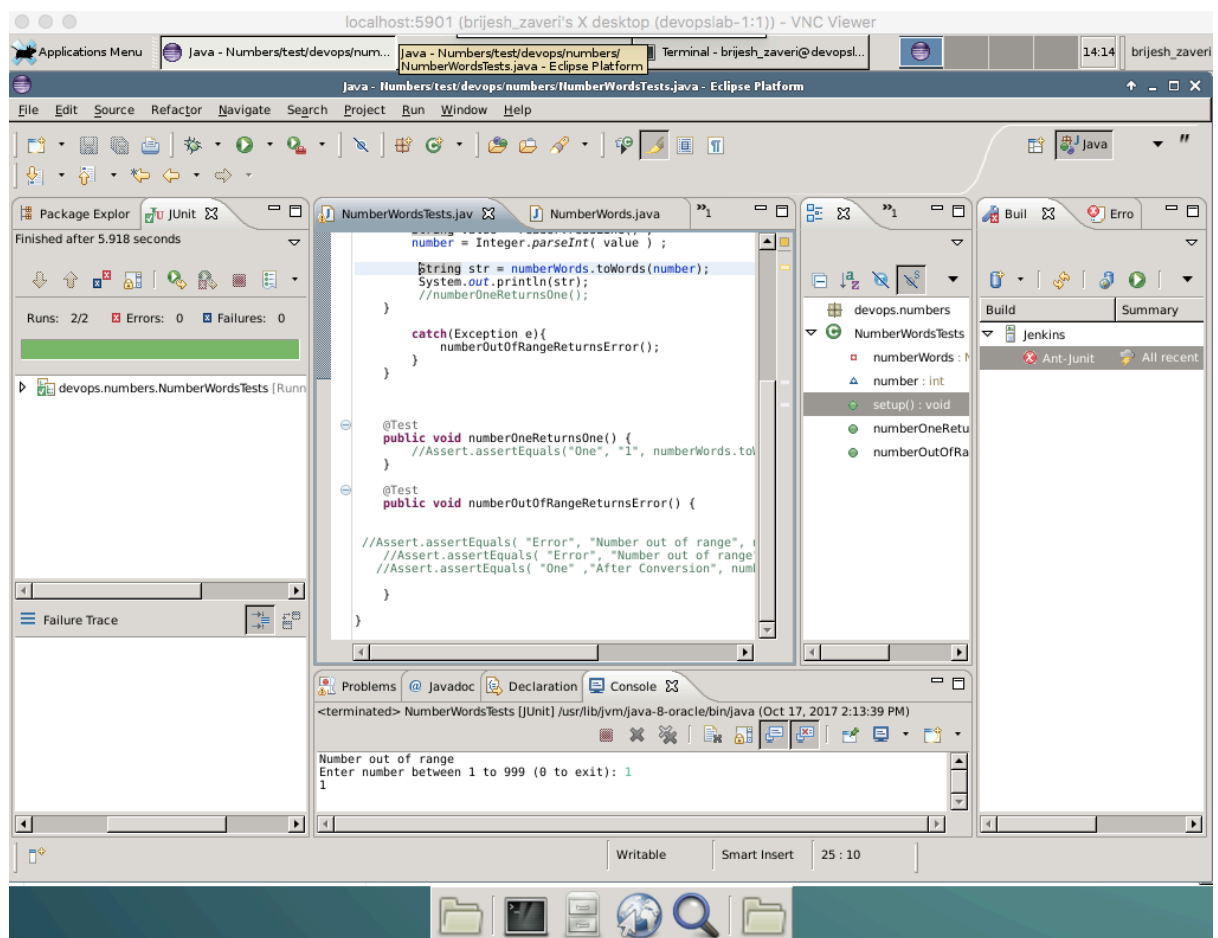

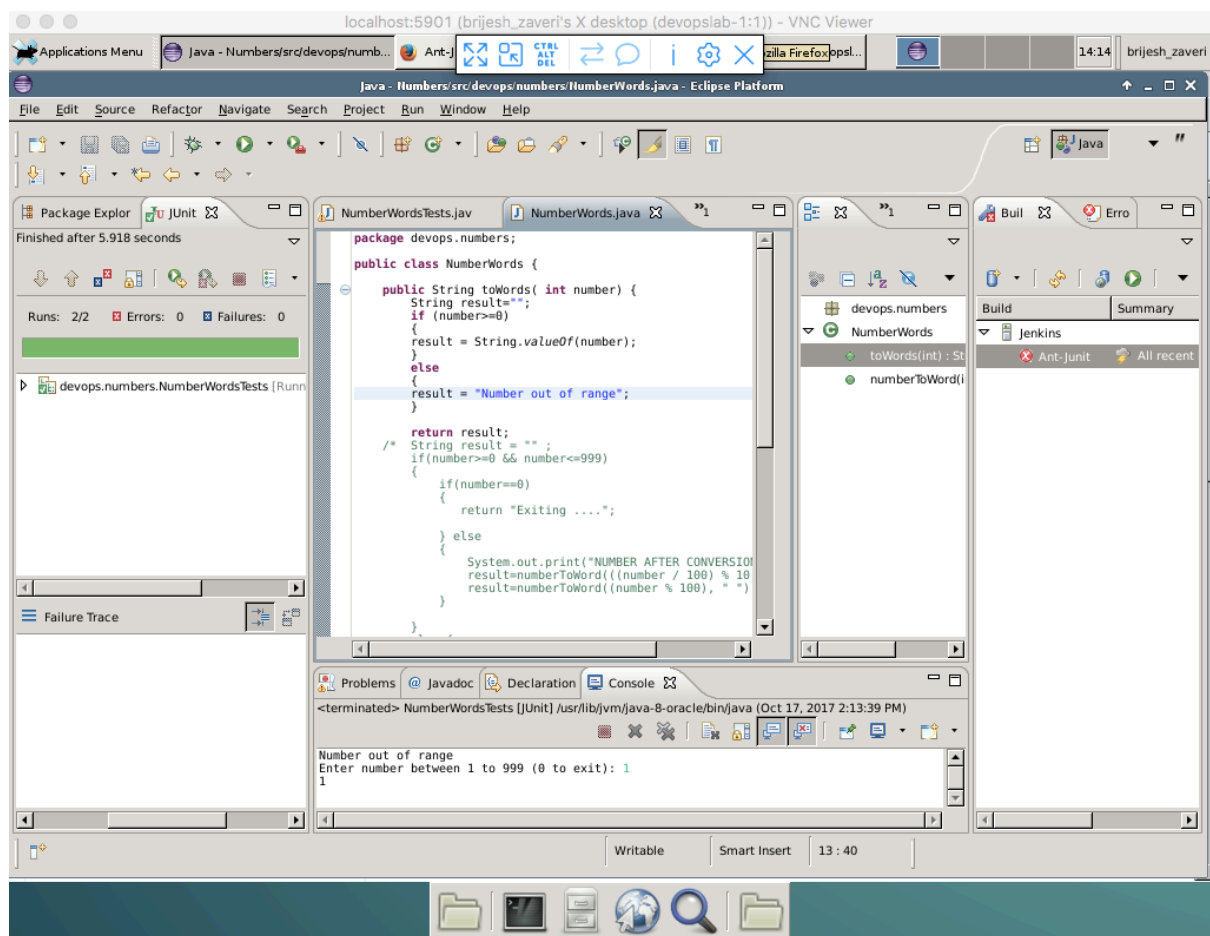

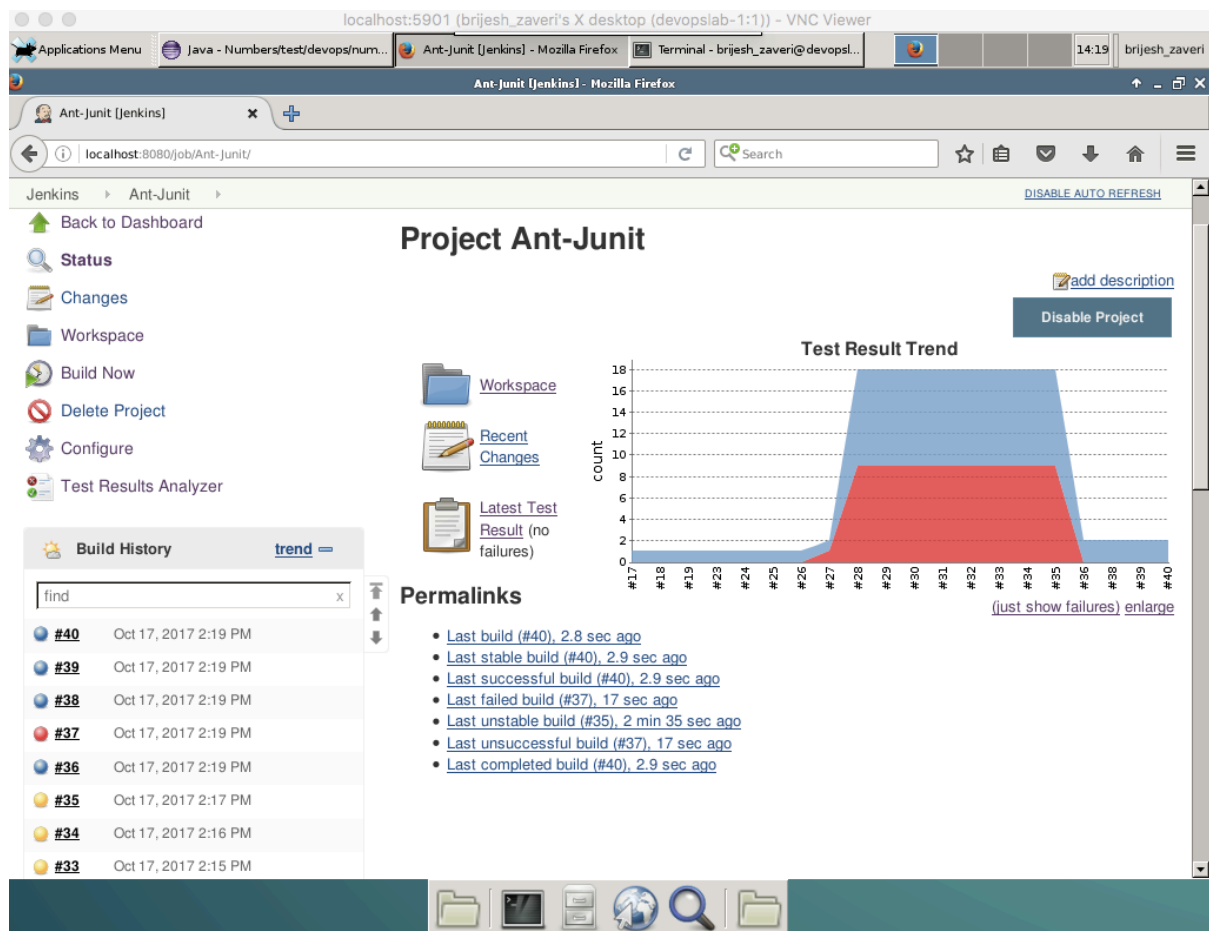

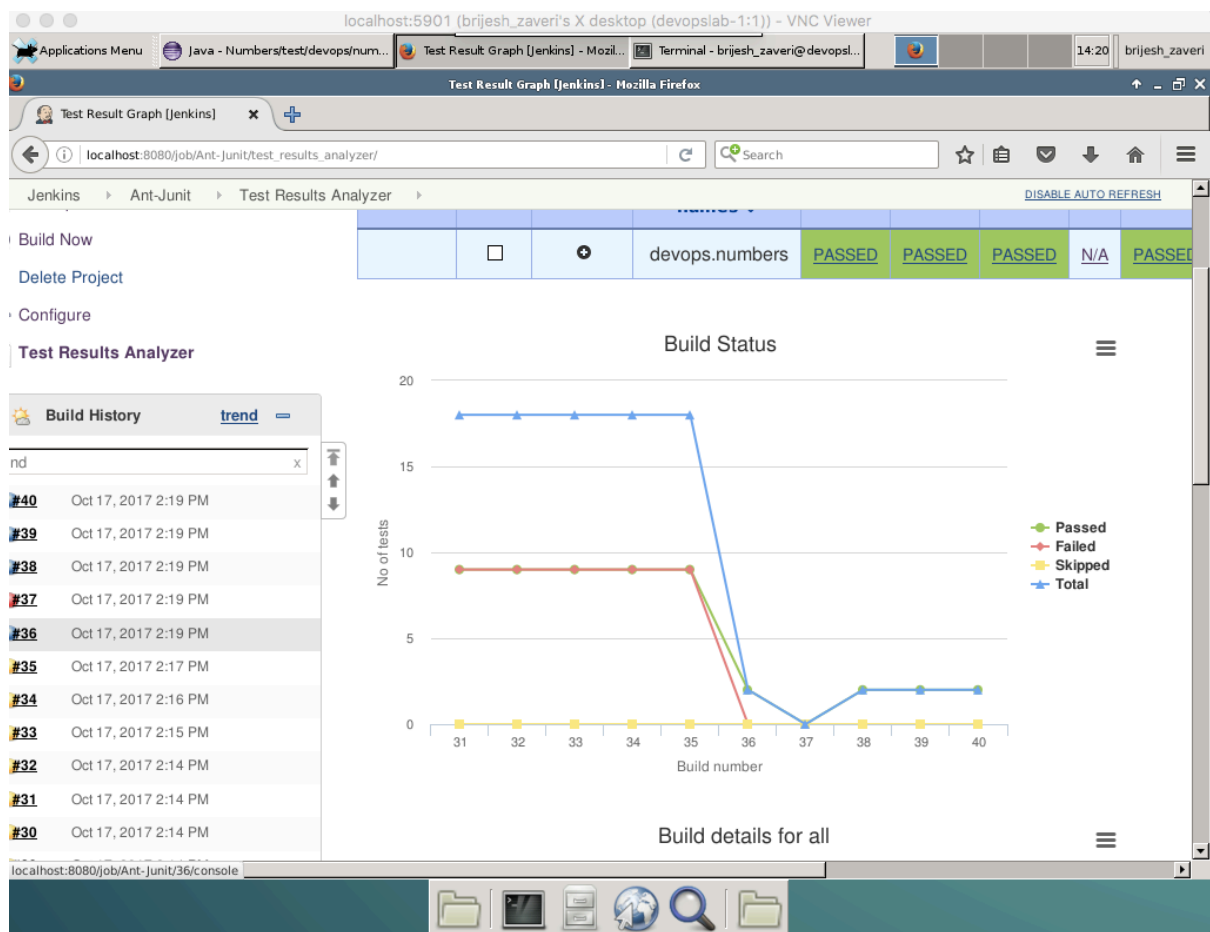

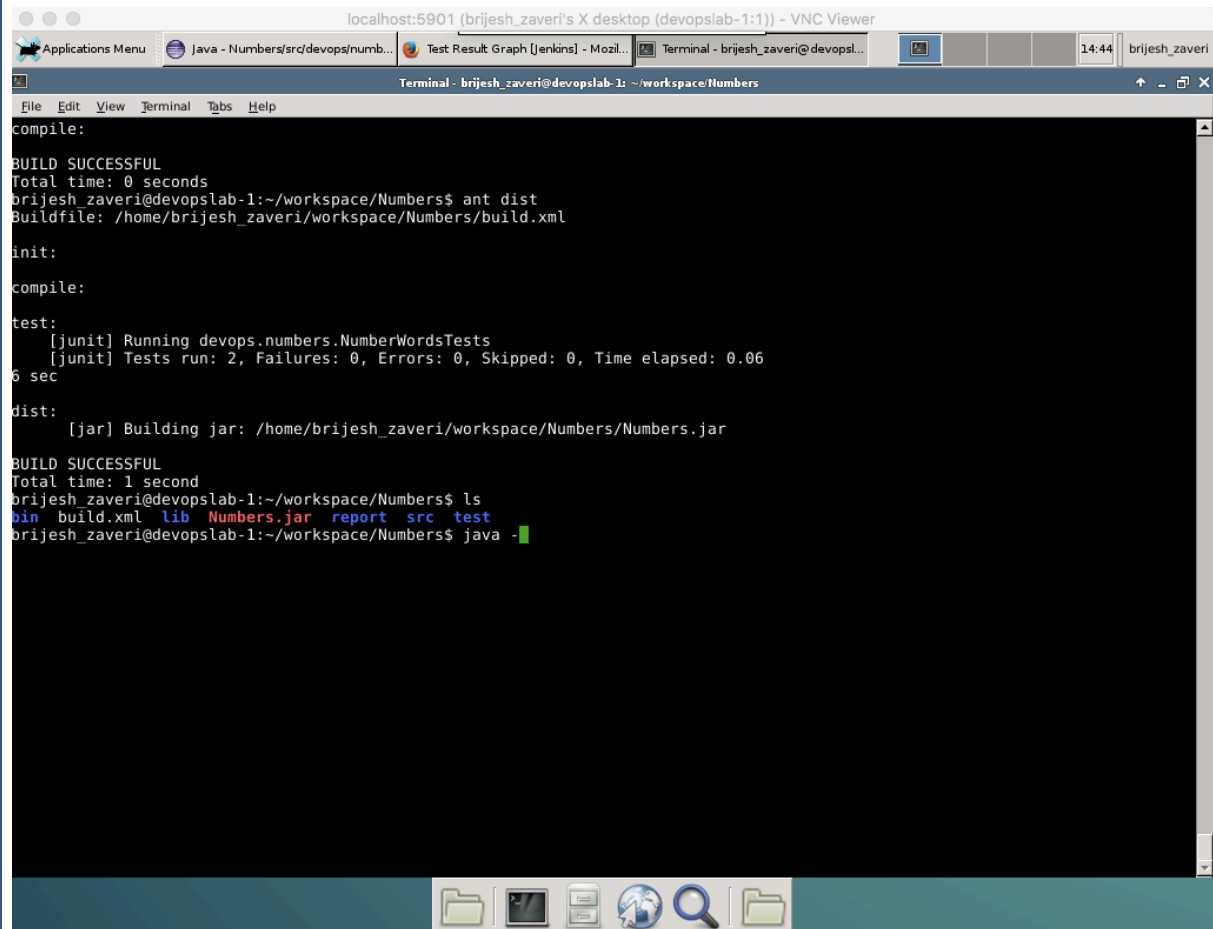

STEP 10: BASED ON FAILED TEST CASES, DEVELOP YOUR CODE TO ACHIEVE PASS TEST CASES & MONITOR THE SAME THROUGH JENKINS

STEP 11: AFTER YOUR CODE IS DEVELOPED, BUILD IT 'ANT'

The screenshot shows a VNC Viewer window titled 'localhost:5901 (brijesh_zaveri's X desktop (devopslab-1:1)) - VNC Viewer'. The window contains a terminal window titled 'Terminal - brijesh_zaveri@devopslab-1: ~/workspace/Numbers'. The terminal output shows the following commands and results:

```
compile:
BUILD SUCCESSFUL
Total time: 0 seconds
brijesh_zaveri@devopslab-1:~/workspace/Numbers$ ant dist
Buildfile: /home/brijesh_zaveri/workspace/Numbers/build.xml

init:

compile:

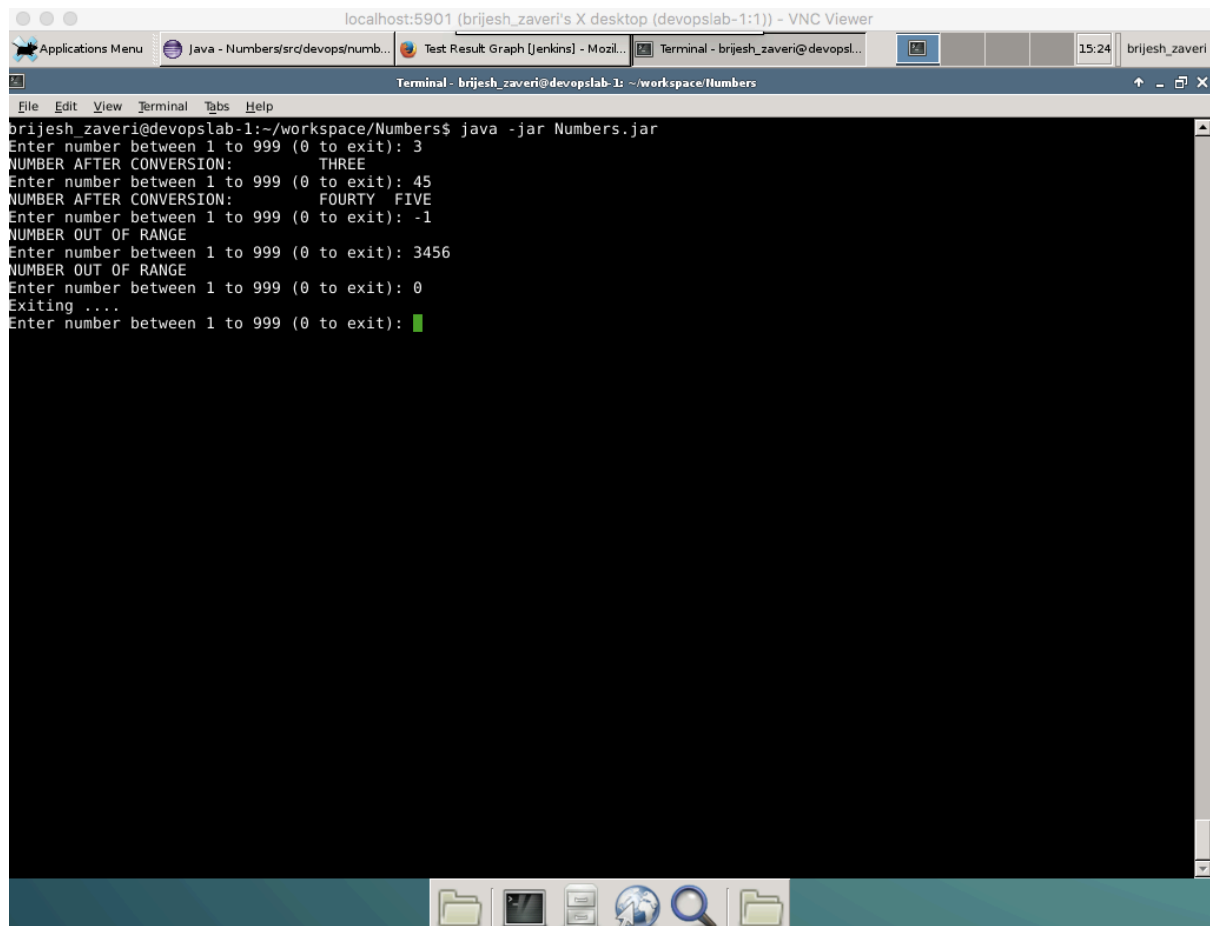

test:
[junit] Running devops.numbers.NumberWordsTests
[junit] Tests run: 2, Failures: 0, Errors: 0, Skipped: 0, Time elapsed: 0.06
6 sec

dist:
[jar] Building jar: /home/brijesh_zaveri/workspace/Numbers/Numbers.jar

BUILD SUCCESSFUL
Total time: 1 second
brijesh_zaveri@devopslab-1:~/workspace/Numbers$ ls
bin  build.xml  lib  Numbers.jar  report  src  test
brijesh_zaveri@devopslab-1:~/workspace/Numbers$ java -
```

The terminal window has a menu bar with 'File', 'Edit', 'View', 'Terminal', 'Tabs', and 'Help'. The bottom of the VNC Viewer window shows a taskbar with icons for a folder, a terminal, a file manager, a globe, a magnifying glass, and another folder.

STEP 12: ON SUCCESSFUL BUILD, JAR FILE WILL BE CREATED. RUN THE JAR FILE.

```
